Creative Europe

- The Spur is a project for the creation of an **European cooperation network** made up of seven cultural organisations that operate on a local and international scale as cultural operators, focusing above all on the field of the visual arts. It has two key **objectives**:
 - 1) To develop innovative projects for building the professional capacities and **transnational mobility of creators**, in particular visual artists, enabling the sector to move towards the economy of creativity and facilitating the exploration of new business and work models.
 - 2) To implement transnational co-management processes between different organisations in order to foster collaboration and knowledge transfer and, consequently, **generate a European bank of exportable and reusable management resources that help to build the professional capacities of the sector**

- Improving the innovation capacity in SMEs is one of the most important objectives across Europe to reach the EU2020-goal of Smart Growth. A lot of policy instruments have been established to contribute to this objective. But it seems not easy to reach the SMEs with structural funds, especially in cross-border regions.
- In fact, different border regions with the same objectives and comparable policy instruments (e.g. INTERREG-Programmes) still use different strategies and projects to realise SME involvement. The KISS ME project partners uses these differences to improve their policy instruments addressing SMEs to develop, grow and engage in innovation processes.
